

SUNY ATTAIN Lab at Watertown

Empowering Communities Through Innovative Technologies

ATTAIN

Advanced Technology Training and Information Networking (ATTAIN), is a network of technology labs located across NYS offering an assortment of academic, occupational and employability courses. We teach, train, educate and provide certification opportunities in QuickBooks and Microsoft Office products to those who desire to become proficient and effective in the use of today's business tools.

Our Program

A collaborative classroom environment offering Basic Computers to Certification Training,. We have a wide range of beginner to advance classes as well as software to help increase reading, writing and/or math skills.
